

We provide a comprehensive variety of services in Customs clearance of goods under different Customs regimes at the Kostomouksha Customs check-point.

Our purpose is to perform Customs clearance of the goods in compliance with the Customs legislation and regulations, exclude possible risks, optimize the time-terms and minimize the expenses arising in the course of the Customs clearance.

We have a profound experience in Customs clearance of different items and goods, such as:

- timber processing equipment and production lines
- asphalt-making plants
- drying kilns for sawn-goods
- aspiration systems
- boiler stations
- crushing, milling and sorting machinery
- construction and harvesting machines and machinery
- transport vehicles (Customs formalities performed in St.Petersburg)
- industrial security systems
- repaired goods
- mass-media production
- goods requiring the issuance of a self-propelled machine certificate and subject for Customs clearance in St.Petersburg, with their actual location at either of the Luttya, Suopara or Salla Customs check-points
- investments into the Initial capital of enterprises, etc.

Besides import Customs operations, we can help you in performing the necessary export Customs formalities, too.
